

Ohio Revised Code

Section 2117.34 Execution - limitations.

Effective: January 13, 2012

Legislation: Senate Bill 124 - 129th General Assembly

No execution against the assets of an estate shall issue upon a judgment against an executor or administrator unless upon the order of the probate court that appointed the executor or administrator. If an account has been rendered by the executor or administrator and settled by the court, the execution shall issue only for the sum that appeared, on settlement of the account, to be a just proportion of the assets applicable to the judgment. The order of the court allowing the execution shall fix the amount for which the execution shall issue.
